Heliskiing rates winter 2010

Start from Tracouet / Nendaz (2200m). **Prices are per persons**, consult the general conditions of Montagne-Loisirs. Transport fees from participants and guides are not included in this prices (skipass and taxi...). This prices can change with the petrol inflation (helicopter).

Depending of the meteo conditions, the goal or the technical level of participants, we can organize smaller groups. This security decision is taken by the responsible guide of the outing.
